Moje Bambino ensures:

Quality of our products

Moje Bambino products meet the highest quality standards and are made of fabrics only from reliable and reputable suppliers. They are durable, functional and ideal for everyday use in nurseries, kindergartens and schools.

Exceptional design

Moje Bambino products are designed with great attention to details. The pleasing shapes, colours and beautiful designs appeal to children and educators alike, and provide a warm, relaxing atmosphere.

Safety

is a top priority for us. Moje Bambino products meet the applicable European safety standards, are tested by TÜV Rheinland and certified.

Professional advices

We are open for all your questions and ideas. We will help you with your situation and give you the best solutions. We are waiting for all your suggestions, as we want to improve our products according to your needs.

Fast deliveries

We keep constantly in stock 85% of our production range for you and therefore we can deliver in the shortest possible time.

Educational value

We care about professional support and expert solutions for all who are involved in education of children. From the beginning we are involved in educational projects and cooperate with specialists looking for effective ideas in process of education.

Everything from one supplier

As a kindergarten and school supplier we have for you a complete offer starting from furniture, soft plays, craft materials to teaching and learning aids, just everything you need for your customers.

Children safety is priority for Moje Bambino

Our certificates guarantee safety and quality:

Most of Moje Bambino furniture and Moje Bambino outdoor play equipment is TÜV Rheinland tested. TÜV safety certificates confirm the compliance with the applicable EU standards and guidelines:

- EN 1792-1:2007
- EN 1792-2:2012
- EN 14073-2:2006
- EN 14073-3:2006
- EN 1729-1:2006
- EN 1729-2:2012
- EN 14074:2006
- EN 1176
- EN 16121

We are proud to announce that the Moje Bambino management system meets the requirements of the International Standards ISO 9001 and ISO 14001. We have confirmed this by obtaining the certificate of an independent SGS unit with UKAS accreditation. Our clients can be sure that the quality of the products and services we provide is at the highest level.

Our Bambino chairs are made of plywood from responsible forest management sources.

FSC® certification ensures product is environmentally appropriate, socially beneficial and economically viable.

Children's well-being, safety and social development are our top priorities. Play space needs to be of high quality and good design to attract children and allow them to develop safely and freely.

Moje Bambino furniture holds safety certificates validating compliance with the European Union standards. This means that our furniture are completely safe and fully correspond to the requirements set for products intended for children. Both the furniture as well as materials and components, from which they were made must be strictly controlled and comply with the stringent standards. TÜV certification mark is a guarantee of safety and the highest quality.

Echtholz

Collection

As we know how demanding a day at daycare or school can be, we want our new ECHTHOLZ COLLECTION meet the highest demands. Each product made of natural wood is unique, so are the furniture pieces of our ECHTHOLZ COLLECTION, each having unique grain, structure and slight color differences. Trees become one of a kind in the course of its growth depending on various factors, e.g. temperature and humidity. That natural and rustic character is reflected in every piece of furniture that we manufacture for you. Deviations in structure, surface and grains are a characteristic of real wood!

nism

Wood remains one of the most beautiful natural materials. It is a biologically renewable raw material. Trees help reducing carbon dioxide from the air stabilising the proper balance of the atmosphere.

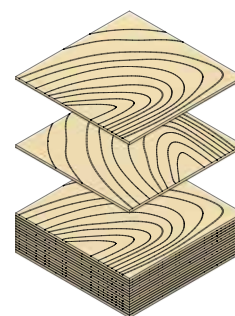

The open-pored wood structure ensures the absorption of pollutants for an optimal indoor climate. An important aspect also for allergy sufferers and for all people who respect healthy environment

We try to keep the transport routes for procurement as short as possible. During processing raw material is completely used up. Wood waste is reused in the production of chipboard. The ecological efficiency balance of this natural material is very good

Our Echtholz veneer

consists exclusively of layers of thin wood layers glued crosswise. The grain of the individual layers runs perpendicular to each other – that gives the furniture its special strength on the one hand and on the other ensures very decorative edge image

In our Echtholz collection all elements like partition walls, shelves and back panels are made of real wood with no exception.

Echtholz – cabinet M with 1 shelf,

Collection

Cabinets L

Width 90 cm, depth 39 cm,
Height 121,8 cm

Cabinets made of varnished plywood. Deviations in structure, surface and grains are a characteristic of real wood! Every piece of furniture is delivered assembled.

Selected models are equipped with the appropriate number of wooden boxes. The shelves are fully adjustable, with the exception of the constructional shelf fixed at a height of 86 cm. You can adapt the cabinet with additional shelves (098552) according to your needs. With the L cabinet, additional shelves fit into the narrow cabinet compartments at the bottom (098554).

The fronts of doors and drawers are available in natural birch or white. Doors also with felt applique (except for cabinet 098524) and optionally lockable. The hinges open 180°. The sturdy drawers with metal guides run smoothly and close with a dampening thanks to the soft-closing mechanism. There are cutout or silver railing handles available to select. Cabinets 098521 with lockable doors S.

Cabinets L are available with plinth or on legs. The height of the base area is always 8 cm. Cabinets with drawers are only available on plinth and must be attached to the wall.

COLLECTION

QUADRO

Quadro is distinguished by modern design, rich but subdued colours that fit any interior and large variety of cupboards from which you can compose any set (four basic height options and two in width), adapted to individual needs or choose from ready-made propositions.

Furniture is made of laminated chipboard (thickness: 18 mm) in maple tone or white, complemented by details made of white laminated chipboard. Doors and drawers fronts made of MDF, covered with durable thermoplastic film. Foiled edges of fronts do not require any additional rim protection.

RECESSED HANDLE

POSSIBILITY TO MOUNT MEDIUM OR SMALL DOORS

CUPBOARDS WITH COMPARTMENT ALLOW TO MOUNT DRAWERS ONLY IN LOWER LEVEL OF THE FURNITURE

INTERIOR CUPBOARD SPACES CAN BE DIVIDED INTO SMALLER COMPARTMENTS WITH ADDITIONAL SHELVES

* Cabinets with a height of 160 cm or more must be attached to the wall.

** Cabinets can only be equipped with drawers in the lower part.

Due to aesthetically made rear, cupboards can be set in various configurations, not only by walls but also in the middle of the classroom. Cupboards shaped in 1/8 of a circle provide possibility to set them in a shape of wave or semicircular. Cabinets in various heights and widths can be equipped with drawers or doors and plastic containers. Two versions of base can be chosen: plinth or wheels. Higher cupboards should be fixed to the wall for safety. Cupboard frames have a notch at the rear side for the skirting board. Wide choice of colours is provided – by doors and drawers in 12 different shades. Doors and drawers are complemented by elegant recessed handles. Doors are equipped with 180 degrees openable hinges (in case of cabinets divided into three compartments, doors mounted to partition have different type of hinge).

Play corners are great complement to attract children attention and enhance time spent at classroom or day-care room, same applies to the desks, libraries, benches, regals and cloakrooms.

Choice and assembly of doors in 3-column cupboards

In 3-column cupboards, 2 kinds of doors are used: small doors mounted to the sides of the cupboard and small doors mounted to the partition of compartment. Using doors mounted to the side of a cupboard the handle is always facing the center of the furniture and using doors mounted to the partition of compartment allows to choose the direction the handle is facing.

WARNING:

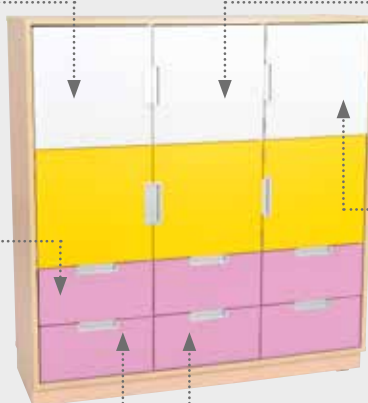

Mounting hinges on the bulkhead of compartment on both sides on the same height level is not possible!

Example:

small doors mounted to the side of the cupboard – handle always facing centre of the furniture

In the outer compartments fit exterior narrow drawers.

cupboards with compartment allow to mount drawers only in lower level of the furniture

in the middle column only small doors mounted to partition of compartment can be used

small doors mounted to the side of the cupboard – handle always facing centre of the furniture

in the middle column lower level, only narrow middle drawers can be mounted

Theme sets Quadro

Quadro themed sets consist of functional cabinets, the imaginative front design is based on various subject areas. Mountain, Sea, Princess or the Forest theme - the colorful, child-friendly applications create an inspiring and at the same time harmonious environment and invite children to play and learn. The furniture set can only be ordered as a complete set. It can be supplemented with many additional elements from our offer such as wall applications, carpets or play corners with suitable themes. The furniture is made of laminated chipboard (18mm thick) in a maple tone (body) and white (partitions and shelves). Fronts and applications are made of colored, foiled MDF board; Themes are applied to the film in a special process. The high-quality hinges allow the doors to be opened by 180°. With shell handles, aluminum colored

FLEXI Collection

New collection Flexi stands out for a large variety of cabinets, allowing you to compose various sets of furniture both for storing toys and educational aids or to divide classroom and arrange play corners.

The furniture is made of laminated chipboard in a birch tone, 18 mm thick, with ABS edge banding. An aesthetically made back sides of the cabinets enable placing them in various configurations, not only by the walls, but also in the middle of the classroom.

FIRE PROTECTION

The fire protection plays an increasingly important role in child care centers. We offer you the opportunity to equip areas with the right furniture with increased fire protection requirements.

For the **Flexi-TB collection**, we use flame-retardant, laminated wood-based panels in birch decor (thickness 18 mm) with ABS edge banding in a multiplex look. **The furniture board meets class B-s1, d0 according to DIN EN 13501-1.**

We offer various cabinets that feature flame-retardant capabilities. You may recognize them by  label.

Flexi-TB cabinets are available solely on a plinth and with doors in the birch tone only.

In principle, the following are not available in a flame-retardant version:

Cabinets with legs and on wheels, cabinets for wood or plastic containers, all wood and plastic containers as well as textile boxes, cabinets with mirrors as a back wall, attachments, open shelves, tall cabinets, cabinets Relax, desks de luxe and storage cabinets. Furthermore, only selected bookshelves with flame-retardant wood-based panels are available. Doors for shelves in flame-retardant version are only available in the birch color. Door hinges are made of metal, i.e. non-flammable. The door handles can be omitted due to the low fire load.

Flexi sets

The Flexi collection excels in versatile, innovative multifunctional furniture. It adapts to the available space in the room, can be set up freely and serves ideally as room dividers. Basic elements, add-on shelves and additional doors allow numerous design variants. They can be set up and rearranged in no time at all. Add-on units increase the cabinets capacity. Flexible, stable and practical – that's Flexi! For the collection, we use laminated chipboard (18mm thick) in birch-tone with ABS edge banding (2mm thick) in multiplex look. The natural décor can be complemented with coloured door fronts. This creates the simple, unmistakable design of our Flexi collection.

GRANDÉ

GRANDE

Made of laminated chipboard in maple and white tone. Fronts are also available in grey colour.

white

maple

Furniture pieces from the Grande collection are made of laminated chipboard with a thickness of 18 mm, in maple and white tone. Fronts are also available in grey colour.

The Grande collection is modern furniture adapted mainly to the needs of primary and secondary schools, to equip the classrooms, workrooms as well as administrative rooms. Cabinets and level raisers are available in 2 depths (38 and 48 cm), which allows the creation of furniture sets with deeper cabinets in lower part and shallow cabinets on the top.

Cabinets are available in 2 heights and 2 depths. Level raisers are available in 3 heights and 2 depths.

Combining them allows you to create cabinets with different overall heights, depending on your needs.

COLOR VARIANTS OF THE FRONTS:

maple

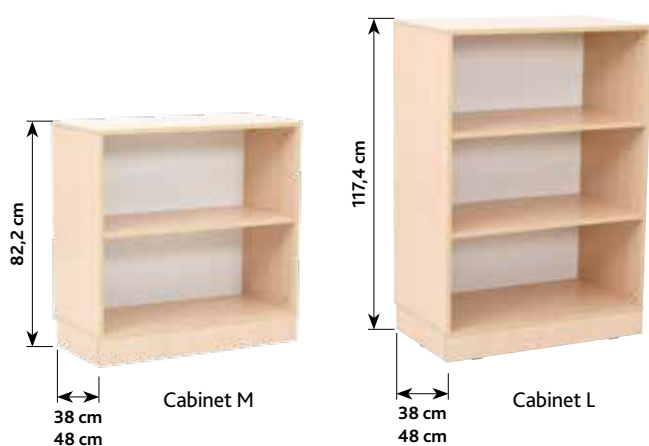

white

grey

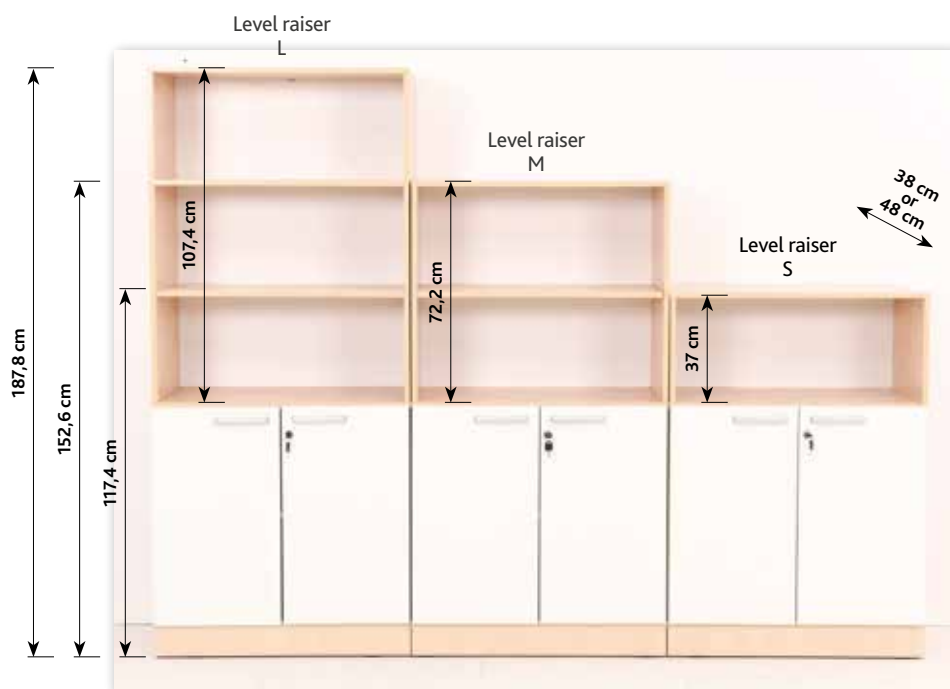

yellow

green

Cabinets available in 4 heights and 2 depths each, standard width 82 cm

Module with ladder allows for optimal use of the surface

The combination of top cabinets and base cabinets in different heights creates loosened up rows of cabinets with plenty of storage space.

From a height of 115 cm, the cabinets must be anchored to the wall.

The doors are available in 5 colors. Two types of hinges allow opening at angles of 90° or 180°. Doors are offered in pairs - suitable for standard cabinet width 82.2 cm. The 90° hinges are equipped with the soft-closing mechanism.

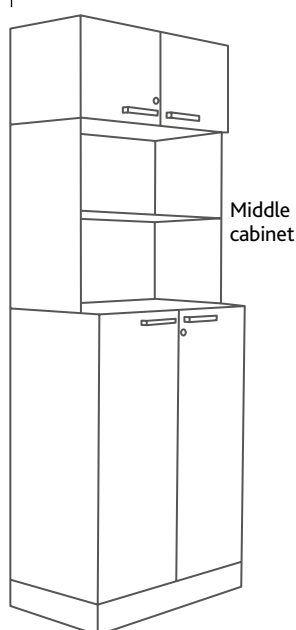

Optionally, the doors are available lockable. This way important documents can be stored safely.

The installation of doors increases the depth of the cabinet by 18 mm - to 39.8 cm or 49.8 cm.

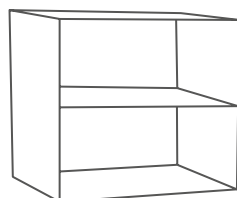

Shelves are adjustable 32 mm each.

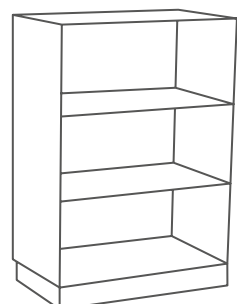

A top cabinet depth: 38 cm, a bottom cabinet depth: 48 cm, a middle cabinet (096940, 096940W for width 82cm or 098287, 098287W for width 42cm - sold separately) is required for installation to accommodate the depth difference. It replaces the original bottom of the attachment.

Level raiser
38cm wide

Middle
cabinet

Cabinet 48cm wide

The sturdy drawers with metal rails and soft-closing mechanism are smooth-running and quiet.

Available with fronts in 5 colors and are offered in pairs.

The installation of drawers increases the depth of the cabinet by 18 mm - to 39.8 cm or 49.8 cm.

Grande wall units

PHILIP PASTEL CHAIRS

Chairs made of varnished beech plywood with a thickness of 6 mm. The frame is made of a wooden profile with a cross-section of 22 x 45 mm. The contoured seat eliminates pressure under the knees while sitting, and the comfortable backrest ensures proper body posture. The seat plate has been placed between the structural elements of the frame. The Filipek chair in size 4 is equipped with a reinforcing link between the front legs. A solid, wooden structure ensures stability. Plastic or felt feet protect the floor against scratching. Chairs can be placed on top of each other. Available in sizes 1-4, 5 colors.

ALEX CHAIRS

beech

1-5
years

size 1-4

THE FRAME of the stable children's chair is made of lacquered solid beech wood.

THE PROFILED SEAT SURFACE (plywood, 6 mm thick) reduces the pressure on the knees when sitting, and the comfortable backrest supports correct posture.

STACKABLE Thanks to their construction, the chairs are space-saving and can be stacked safely (maximum 5 chairs).

Chair Alex 1 with felt pads, seat height 26 cm, for table height 46 cm, beech 119001

Chair Alex 2 with felt pads, seat height 31 cm, for table height 53 cm, beech 119002

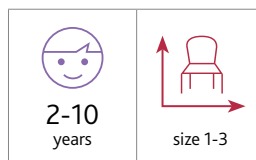

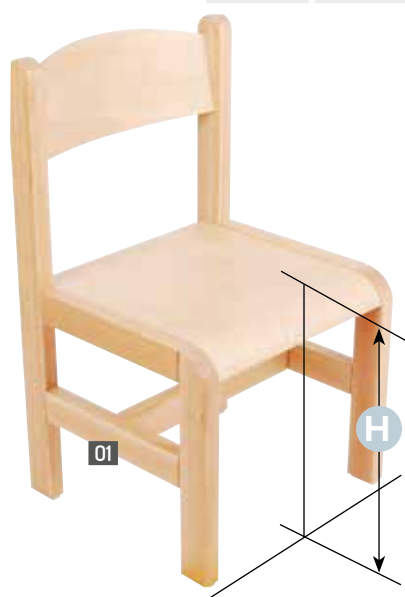

Chair Alex 3 with felt pads, seat height 35 cm, for table height 59 cm, beech 119003

Chair Alex 4 with felt pads, seat height 38 cm, for table height 64 cm, beech 119004

WOODEN CHAIRS

Chairs made of laquered beech wood.
Seat and backrest in 6 colours.

Dimensions of the seat
wooden chair:
size 1: approx. 30 x 26 cm
size 2: approx. 30 x 28 cm

years warranty!

Water-based acrylic varnish

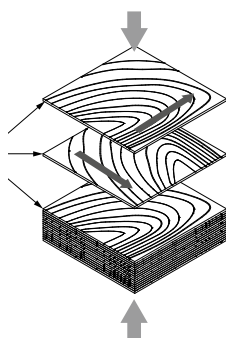

ADJUSTABLE height

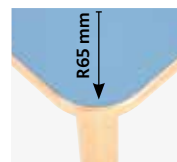

Our plywood

Consists of 15 to 17 layers of thin real wood layers (veneers) that are glued crosswise. The fiber direction of the individual layers runs perpendicular to each other – this gives the board its special strength on the one hand and ensures the very decorative edge appearance on the other.

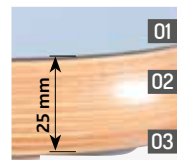

HPL coating

- extremely robust and resistant
 - scratch and shock resistant
 - water, chemical and temperature resistant
 - extremely easy to care for, as it is smooth and pore-free.
- Our real wood veneer

Rounded corners protect children against injuries.

Extra thick (25 mm) plywood.

- 01** upper side colored HPL laminated
- 02** plywood veneers
- 03** underside with pressure-relieving HPL coating

Multiplex edge-banding sanded and sealed with water-based acrylic varnish

Very stable due to the use of the metal plate

Height adjustment of the table legs using attachments.

Flexi table

The solid and extremely well-designed real wood tables are true miracles of flexibility when it comes to options for placement and use. The 10 available tabletop shapes (image below) can be combined with one another in a variety of ways and, thanks to table legs with castors (optional), can be changed over quickly. You can optionally purchase them as complete tables including table legs at a fixed height or combine a table top of your choice with height-adjustable table legs with / without castors (optionally beech natural or whitened)

HPL STRENGTHENED TABLETOPS

5

years
warranty!

ACCORDING
to the applicable standards
PN-EN 1729-1:2016-2
and EN 1729-2+A1:2016-2.

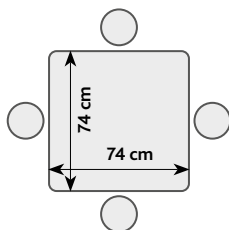

Moje Bambino recommend:

Particularly recommended
for integrative institutions.
Thanks to the strong solid
wood edges, the tables can
also handle it when a wheel-
chair hits them.

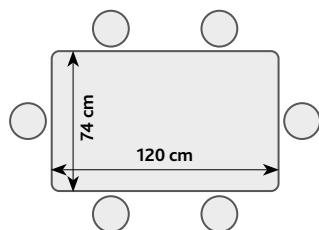

Tabletops made of very strong and scratch-resistant HPL laminated chipboard in a beech tone (thickness: 18 mm). HPL is a thermosetting plastic, scratch and impact resistant, having a high resistance to chemical agents and high temperatures. For children's safety corners are slightly rounded, and the

edges are finished with natural wooden rim emphasizing durability and aesthetic value of tabletops. Tabletops can be selected with square legs in four heights or round legs with adjustable height (sold separately).

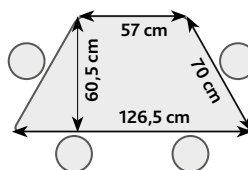

Square strengthened tabletop

• dim. 74 x 74 cm
092300

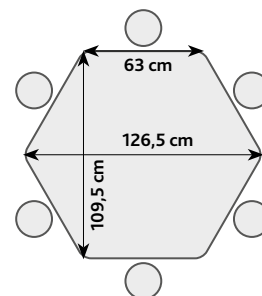

Rectangular strengthened tabletop

• dim. 120 x 74 cm

Quiet tables and tabletops

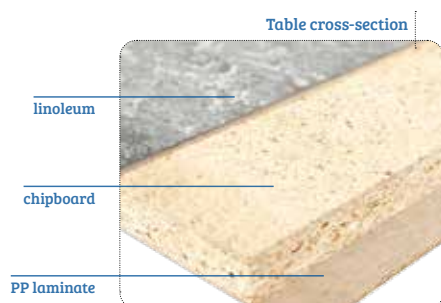

Excessive noise in the nursery is one of the reasons for the lack of concentration, increased stress, anxiety, and even children crying. Teachers are also feeling the effects of noise. The noise makes internal organs vibrate, which can cause cardiovascular disease, and digestive and nervous problems.

Therefore reducing the noise level in the areas where children and teachers spend a lot of time is very important and can contribute to the improvement of fun and learning experiences. To reduce noise in the facilities we offer quiet tables.

The tabletops of the quiet tables have a special layered structure that decreases noises generated during children activities at the tables. The noise caused by tipped blocks, puzzles, set dishes, etc. is decreased, and thus the comfort of fun and work will increase.

Quiet tables

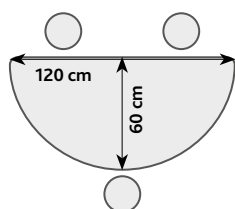

Quiet tables Plus

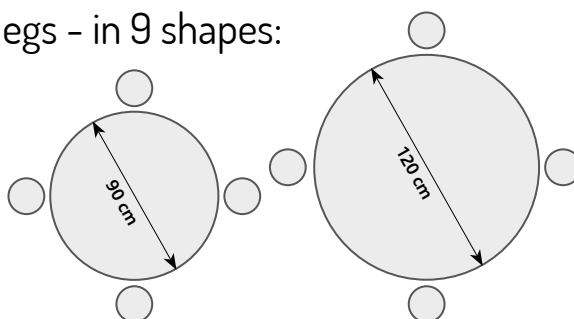

Rounded corners
with ABS edge banding

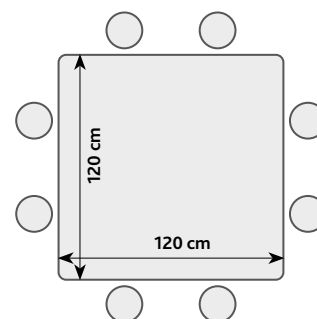

Quiet tabletops PLUS combine with wooden table legs - in 9 shapes:

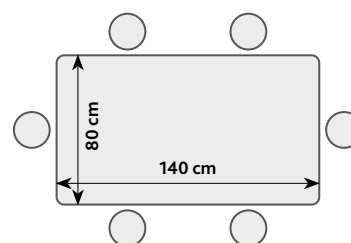

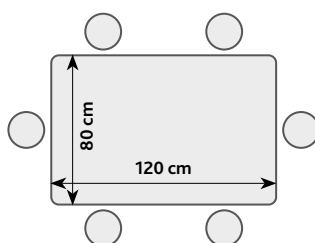

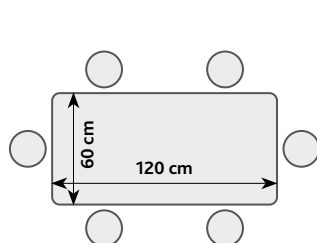

Quiet tables half-round

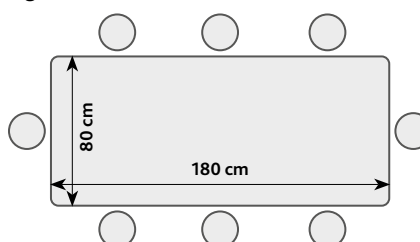

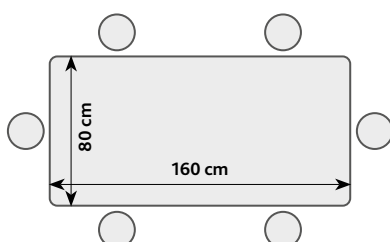

Quiet tables round

Quiet tables square

Quiet tables rectangular

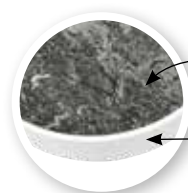

Quiet tabletops PLUS

Quiet tabletops Plus made of special materials which absorb noise caused by dropped objects, like crayons or wooden blocks. Tabletop made of chipboard with a layer of HDF and cork sheet, covered with linoleum on the top and PP laminate on the underside, with ABS edge banding. Wooden legs with adjustable height are sold separately (126528 or 126540).

ACCORDING
to the applicable standards
PN-EN 1729-1:2016-2
and EN 1729-2+A1:2016-2.

Quiet tables and Quiet tabletops

Noise
absorbing surface

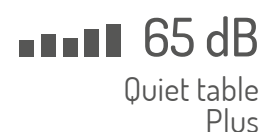

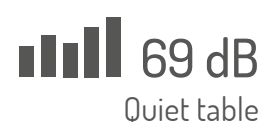

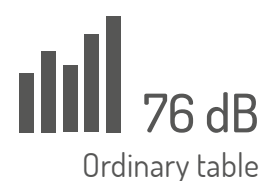

rounded corners w
ith ABS edge banding

Our Quiet tabletops and Quiet tables are made of special materials which absorb noise, so it is easier to muffle the sound caused by dropped objects, like wooden blocks, crayons or cutlery.

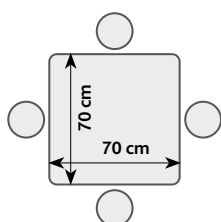

This is an easy way to ensure calm environment in a classroom. Reduced noise has a positive effect on children's concentration and well-being.

Tabletops are made of chipboard with a layer of HDF and cork sheet, covered with linoleum on the top and PP laminate on the underside.

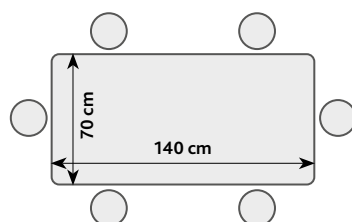

They are available in various colours, shapes and sizes.

MOOVE+ TABLES

Mobile table on a metal frame with rounded legs (diameter 32 mm). The frame has been welded with the legs for increased stability. Tabletop made of laminated chipboard (18mm thick), finished with an ABS edge (1mm thick).

- two plugs and a wheel with a brake
- dim. 90 x 90 x 127,3 cm

ACCORDING
to the applicable standards
PN-EN 1729-1:2016-2
and PN-EN 1729-2+A1:2016-2.

Tabletop made of laminated chipboard (18mm thick), finished with an ABS edge (1mm thick).

Stable, welded FRAME.

Lockable WHEEL makes it easy to move the tables.

Moove+ triangular table

- two plugs and a wheel with a brake
- dim. 90 x 90 x 127,3 cm

098131

Tabletop: 90 x 90 x 127,3 cm

098152

Both tabletops have one right-angle corner

Moove+ 4 side table

- two plugs and two wheels with brakes
- side lengths 90, 42, 70, 70 cm

098152

Tabletop: 90 x 42 x 70 x 70 cm

TRIANGULAR TABLE MOOVE+

FOUR-SIDED TABLE MOOVE+

School tables, single and double with metal frame – with or without height adjustment

We invite you to familiarize yourself with our offer of school tables. With each model of the table you will find information on what kind of table top can be ordered for a given variant of the frame. Below we explain coding system we use.

Frame choice:

1 frame type → 2 table size (height) → 3 frame colour → 4 feet type

1. FRAME TYPE

Code	Table type	Page
B9030	T school single table, 70 x 50	230
B9031	T school double table, 130 x 50	230
B9032	T school single table with adjustable tabletop angle, 70 x 50	232
B9033	T school single table with adjustable tabletop angle, 100 x 50 (for wheelchair)	232
B9034	IN-T school single table, 70 x 50	234
B9035	IN-T school single table, 130 x 50	234
B9036	Daniel school single table, 70 x 50	236
B9037	Daniel school double table, 130 x 50	236
B9038	Daniel school triple table, 180 x 50	236
B9039	IN-C school single table, 70 x 50	238
B9040	IN-C school double table, 130 x 50	238
B9041	IN-R school single table, 70 x 50	240
B9042	IN-R school double table, 130 x 50	240
B9043	Single table, for plastic containers, 70 x 55	243
B9044	Double table, for plastic containers, 130 x 55	243
B9025	MILA school double table, 130 x 50	244

2. TABLE SIZE (HEIGHT)

03 – size 3, height 59 cm
04 – size 4, height 64 cm
05 – size 5, height 71 cm
06 – size 6, height 76 cm

23 – size adjustment 2–3, height 53–59 cm
24 – size adjustment 2–4, height 53–64 cm
34 – size adjustment 3–4, height 59–64 cm
37 – size adjustment 3–7, height 59–82 cm
46 – size adjustment 4–6, height 64–76 cm
56 – size adjustment 5–6, height 71–76 cm

3. FRAME COLOUR

01 red	02 blue	04 green
05 black	06 yellow	08 silver

4. FEET TYPE

SP – plastic feet

Tabletop choice:

5 tabletop size → 6 tabletop type and colour → 7 edge banding type → 8 corners type

5. TABLETOP SIZE

- 1A** – single, 70 x 50 cm
- 1B** – single, 70 x 55 cm
- 1C** – single, 66 x 50 cm
- 1D** – single, 100 x 55 cm
- 2E** – double, 130 x 50 cm
- 2F** – double, 130 x 55 cm
- 3G** – triple, 180 x 50 cm
- 4H** – quadruple, 80 x 80 cm
- 6J** – six-person, 120 x 80 cm
- 8K** – eight-person, 160 x 80 cm
- 8L** – eight-person, 180 x 80 cm

7. EDGE BANDING TYPE

- PA** (ABS) – standard edge banding
- PU** – Very robust and durable edge banding PU
- PO** – Tabletop made of plywood without additional edge banding
- PD** – Tabletop made of reinforced plate with wooden edge banding

8. CORNERS TYPE

- P** – straight – available as an option with **PA** and always with **PD** edge banding
- Z** – rounded – available as an option with **PA** edge banding, always with **PU** and **PO** edge banding

HPL LAMINATE

HPL laminate is a thermoset material, scratch and impact resistant, with high resistance to chemicals and high temperature. Surfaces covered with HPL are easy to clean, resistant to light, alcohol, organic solvents and water. This type of surface is safe for food. Tables with HPL surface are recommended for the chemical or physical lab or places where water is used for work and testing. They are also excellent equipment for canteens. Tables covered with HPL laminate are available on pages 196–200.

PA edge band-
ing - standard - with
laminated tabletop
(thickness: 18 mm) -

mm) - rounded corners.

PD edge banding -
wooden - with tabletop
laminated with HPL
(thickness: 25 mm).

PO edge banding with
tabletop made of
plywood (thickness: 25
mm) - rounded and
lacquered.

PU EDGE BANDING

The PU edge banding is a special and innovative mixture that penetrates open edges of chipboard and fills all free spaces, so the tabletop and the edges are permanently compounded, without visible connecting points. As a result of the applied technology, PU is characterised by unique durability, mechanical strength and resistance for UV rays. It also ensures high water resistance – much higher than traditional veneering methods. Tables with durable PU edge banding are perfectly suitable for physical and chemical labs.

T TABLES

T tables come in two sizes of tabletops: single (70 x 50 cm) and double (130 x 50 cm). Tables without height adjustment available in sizes from 3 to 6, adjustable tables – in sizes: 2–3, 3–4 and 5–6.

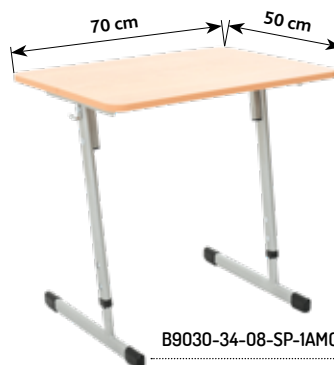

Tabletops available in two versions:

- laminated chipboard (thickness: 18 mm), in 5 colours: beech, maple, birch, white and grey. You can choose ABS edge banding, 2 mm or durable PU edge banding, 4 mm (available colours: beech, maple and birch);
- board (thickness: 25 mm), covered with durable HPL, in 4 colours to choose from: beech, maple, white and grey. You can choose wooden edge banding, glued to the board or choose an option without an additional rim.

The corners in both cases can be straight or rounded. Regardless of the type of tabletop, the frame is available in 6 colours: red, blue, green, yellow, black and aluminium. The tables are equipped with hooks, plastic plugs to protect the floor from scratching and plugs that protect the frame from scratching it while adjusting the height.

Pentagonal Flexi tabletops

Tabletops made of plywood covered with colored HPL laminate (thickness: 25 mm), with rounded edges and corners. HPL is a thermosetting material, resistant to scratches and impacts, having high resistance to chemical agents and high temperature. Tables can be combined in different ways, as you can choose different sets of round legs, sold separately. There are 2 sets of adjustable heights: 40 to 58 cm (096658) or 58 to 64 cm (096659). In addition, you can create mobile tables, completing tops with sets of 3 ordinary legs and 2 equipped with wheels with brake, in 7 different heights (096651–096657).

ZEST5218

Flexi

Folding tables

A space-saving alternative to traditional tables. Tabletop is mounted to a plate screwed on the wall and folded if necessary. Countertop is locked with the key, so it will not unfold unexpectedly. Folded leg is attached to the table with a latch. After unfolding the table top, the magnetic wall plate serves as a board on which you can write with markers. The tabletop can be mounted on a wall plate at 4 heights, and the table leg length is increased accordingly.

AVAILABLE COLOURS:

Play corner Flora

An alternative to the bad weather outside. The bright, natural design fits well in any room. The wall motifs go well with various furnishing elements such as: wardrobes from the Echtholz collection, Quadro wardrobe set Flora or carpet Flora. The space under the platform is large enough to accommodate furniture. The lower window can serve as a puppet theater or shop. Above you can make yourself comfortable with seat cushions. The walls of the upper level contain bullages, so a beautiful view is guaranteed.

Baby corner

Baby corner consists of modules made of plywood. Each module offers different types of activities for children: mazes, movable plexiglas and mirror figures, abacus, tapestry. Modules can be combined together using attached elements, what gives a possibility of creating space isolated from the rest of the room. Corner can be created between two walls and fixing them to the wall ensures stability of the construction.

Hideout for a baby corner

The hideout is an ideal place for children looking for a quiet place to rest and relax. They can hide inside and play on a soft mattress. It is equipped with many attractions that intrigue children and provide them great fun. Sensory appliques stimulate the sense of sight and touch, as well as develop visual-motor coordination. Next to the entrance there is a tree with maze and sensory applications with different textures. Semi-circular wall is covered with a thin fabric, what ensures the child's eye contact with the rest of the room. On the top part there is a large porthole (dia. 49 cm). Hideout is made of lacquered plywood and MDF plate.

The sensory wall appliques little bird (036097) and big grass (036114) are included in the set, but can be replaced with other appliques (036097-036100, 036102-036115, to be ordered separately) if required.

Hideout for a baby corner

Hideout is made of lacquered plywood and MDF plate.

- dim. 108 x 75 x 68 cm
- porthole dim. 49 x 25 cm
- mattress height: 5 cm

099627

Manipulative walls

Manipulative walls made of lacquered plywood, with sensory appliques, mazes and tree branches made of fabric of different textures. They help in developing touch, manual dexterity, hand-eye coordination and motor skills. Children can also learn colors and shapes.

The manipulative-sensory wall – meadow with a ladybug with a zipper will provide many stimulus for the sense of touch, sight and hearing of a child. The wall contains a large maze, as well as two mirrors made of plexiglass (dia. 14.5 and 10 cm) in frames made of colored MDF (dia. 19 and 14.5 cm). Under the wings of the ladybug with a zipper there is another mirror sewn into the vinyl fabric. The colorful element of the flowers are also covered with vinyl fabric. The lower flower has 4 petals, each 16.5 cm long, with a different sensory or sound element. Another attraction is the revolving wheel (dia. 15.5 cm) with a colored print. When circle turns, it changes color to green

Science corners

Mobile greenhouse

The greenhouse enables children in kindergarten or school to look after the plants, watch them grow every day and learn more about the natural processes. It promotes ecological and sustainable thinking in the children. Thanks to the wheels, it is easy to move, e.g. to bring the plants out of the sun into the shade. The scope of delivery includes a plastic cover that can be easily opened and closed with a zipper. The side shelf is integrated into the handle. The basic structure consists of plywood (thickness 18 mm) and metal tubing (thickness 24 and 12 mm). The lower shelf for the plants is made of 12 mm thick plywood and covered with a waterproof layer. It is possible to add another shelf in the interior at a height of 27 cm.

- Overall dimensions: W 120 x D 58 x H 115 cm • Greenhouse dimensions: 84 x 58 x 67 cm
- Dimensions side shelf 24 x 52 cm • Internal shelf dimensions: 84.5 x 15.5 cm

Laboratory cabinet

Cabinet helps in creating a scientific laboratory. It has two folding tabletops and plenty of space for storage. Wheels (with brakes) enable moving it easily from place to place. This functional cabinet is made of white laminated chipboard, with tabletops made of plywood with HPL laminate (thickness: 19 mm). In the main part there is a compartment with two shelves and vertical blind and pull-out cabinet on wheels with 12 plastic containers. On the sides are folding tabletops. On one side there is a mirror, on the other - magnetic board. On each side of the top panel is one halogen lamp, illuminating the counter. In addition, the cabinet has 2 contacts. 4 attached hangers can be used eg. for hanging scales.

Inflamea Poufs

Comfortable seats in a modern shape and colour. The poufs are covered with high-quality, very hard-wearing fabric. The 100% polyester material is stain and moisture-repellent; spilled liquids are not absorbed in the fabric in the first place and can be easily wiped off or vacuumed up without leaving stain marks. Inflamea is also flame retardant and complies with fire protection class B1.
- Seat height: 40 cm - Seat depth: 40 cm

Legvan set

Upholstered furniture series Legvan – collection of seats specially designed for corridors and public spaces. The series consists of modules that can be arranged as desired depending on the function and aesthetics of the room. The modules are available in different colors, which enables creativity in spatial design. Thanks to large seating areas and backrests, they give the room an atmosphere of calm and relaxation and neutralize the hustle and bustle that often arises where many people move about. The structure and arrangement of the Flow seats are expressly conducive to communication and thus also ensure a good social atmosphere.

• Cover: flame retardant textile (Bond – 100% PE), tested according to EN 1021–1, EN 1021–2

• in 7 colors: mustard, orange, green, red, blue, light gray, graphite

Manipulative

-sensory wall - City

Set of two manipulative walls made of plywood with cotton applications attached. Meant to develop children's manual dexterity and their motor and visual coordination. The child learns colors and shapes. A toddler plays by moving shapes placed on rails along the wall. A child practices touch by exploring texture of colorful stamps (smooth and rough), explores hanging colourful objects. The wall includes: foam roof with a removable window, window with curtains which can be zipped and sticks to tap the sounds. Wall can be complemented with mattresses (101068, 101243, 101244, sold separately).

City – manipulative wall

- dim. of 1 part: 135 x 119 cm
- dim. of 2 part: 154 x 102 cm

100931

Sensory wall – forest

Manipulative walls made of lacquered plywood, with sensory appliques, mazes and tree branches made of fabric of different textures. They help in developing touch, manual dexterity, hand-eye coordination and motor skills. Children can also learn colors and shapes.

Manipulative wall – forest 1

Tree includes maze, bar with pieces of fabric of different textures, milled hedgehog with wooden stick, squeaky pipe and blueberry applique.

- dim. 130,5 x 118 cm

099625

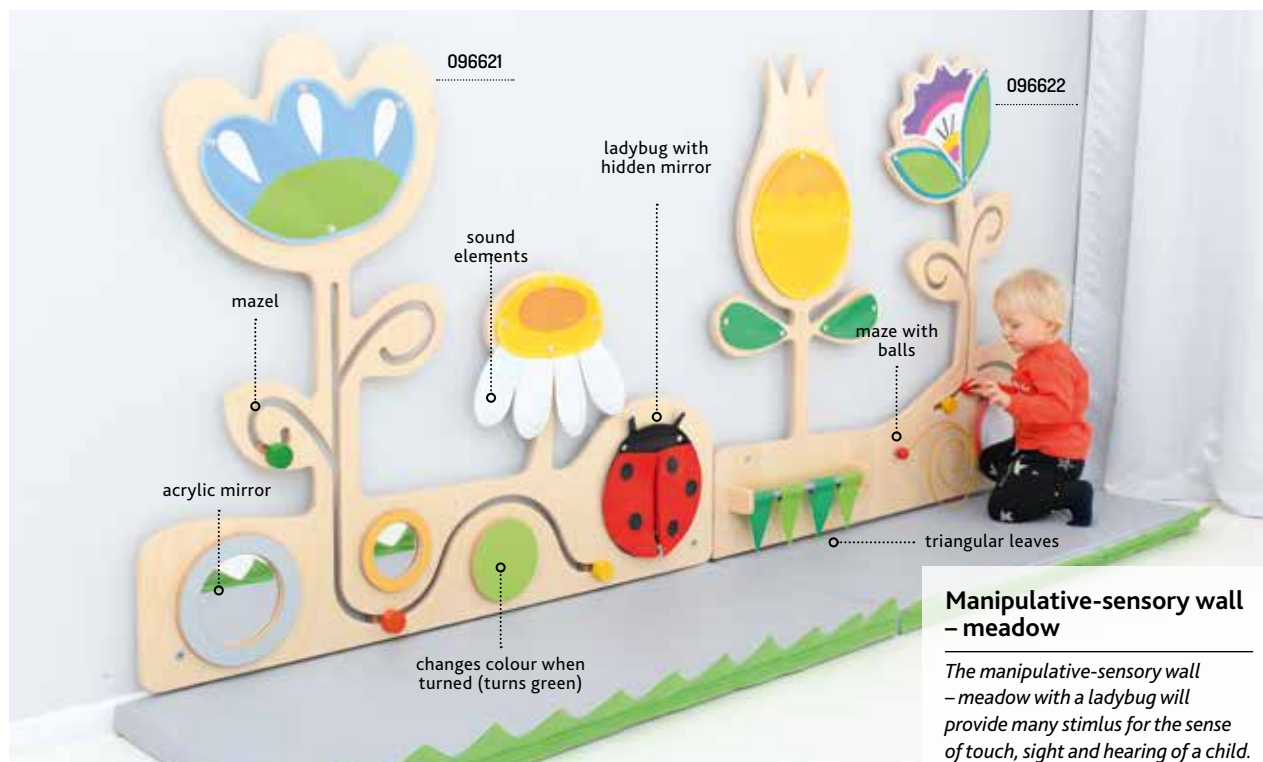

Manipulative wall – forest 2

Tree includes 2 mazes, drum, mirror, grass and fly agaric applique.

- dim. 132 x 120 cm

099626

Manipulative-sensory wall – meadow

The manipulative-sensory wall – meadow with a ladybug will provide many stimulus for the sense of touch, sight and hearing of a child. The wall contains a large maze, as well as two mirrors made of plexiglass (dia. 14.5 and 10 cm) in frames made of colored MDF (dia. 19 and 14.5 cm). Under the wings of the ladybug with a zipper there is another mirror sewn into the vinyl fabric.

Manipulative-sensory wall – meadow with a ladybug

The colorful element of the flowers are also covered with vinyl fabric. The lower flower has 4 petals, each 16.5 cm long, with a different sensory or sound element. Another attraction is the revolving wheel (dia. 15.5 cm) with a colored print. When circle turns, it changes color to green

- length 130 cm
- height 105 cm.

096621

Manipulative-sensory wall – meadow with a snail

- length 128 cm
- height 115 cm

096622

Corner mattresses light grey

The solid, permanently joined together triangles form a large surface for gymnastic or play. They perfectly match with soft decorations attached to the wall (eg. 196003, 196004, 196005), that protect children from hitting the wall. Rollers covered with flame retardant fabric (101658 and 101659, sold separately) can be a functional addition. Mattresses covered with a durable flame retardant fabric.

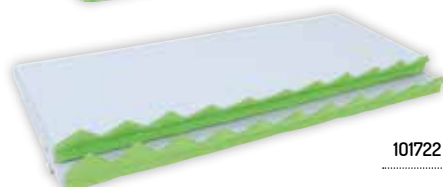

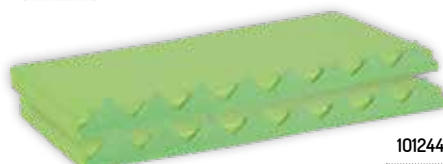

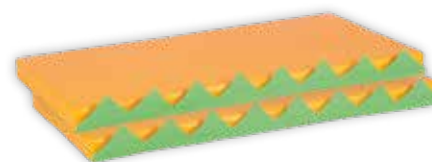

- dim. after unfolding: 150 x 150 x 8 cm.

101657

Corner mattresses orange Two mattresses joined together make a big area for exercises and games. They fit perfectly to the soft decorating elements fastened to the wall (196003, 196004, 196005) which prevent from hitting it. Soft orange roll pillows (101081) can be used as a support. Orange roll pillows not included.

- dim. 150 x 150 x 6 cm

101068

Mattress for manipulative wall

Wall appliqués

These colourful wall appliqués are not only an eye-catcher in any room. Thanks to the use of felt elements, they also help to create more peace and quiet because they muffle disturbing noises. They can be applied individually or in thematic groups. The coloured elements are made of various materials and have different surfaces. The children can not only look at them with their, but also feel them. This trains their perception.

Fine motor skills panels

Decorative elements made of plywood with different motives, which encourage children to play, observe and experience involving touch. Panels fixed to the wall are both nice decoration and can form a playing corner. Thanks to manipulations with strings and recognizing textures with touch children develop dexterity of hands and sense of touch. Delivered with fasteners. Panel with horse allows children to learn different textures: brush bristle, bathroom carpet, artificial grass. • dim. 35 x 35 cm.

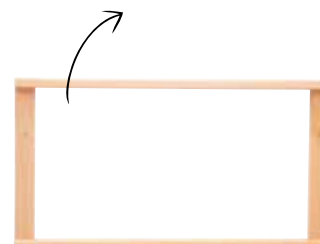

Manipulative frog

Frog fingers have snap fasteners. Doing up and undoing them develop hand motricity and learn snapping.
118209

Texture little horse

Panel with horse allows children to learn different textures: brush bristle, bathroom carpet, artificial grass.
118208

Frame for handling boards

Frame for handling boards (118204, 118205, 118208, 118209, 118261–118266, sold separately). It allows to install two handling boards. When hanged on the wall it allows children to work in vertical position and slide the boards from one side to the other.
118252

Chicken

Behind the shell of an egg there is a chicken with a furry belly and a pipe in it.
118001

Manipulative fish

Colourful fish with different buckles will simplify learning how to manage with different kinds of fastenings.
118208

not suitable for frame
118252

Twisted circle

Spinning with a circle and swirling will catch the attention of children and will encourage to follow the changing pattern. Does not fit to frame 118252.
118206

Panels

Texture mice
Milled mice with wooden sticks.
118261

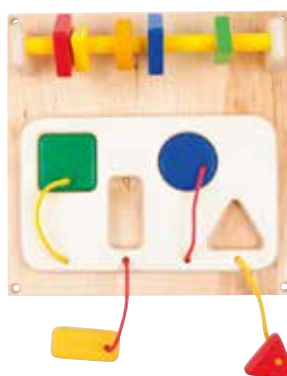

Manipulative sun
Sun with various fastenings to practice hand motricity.
118262

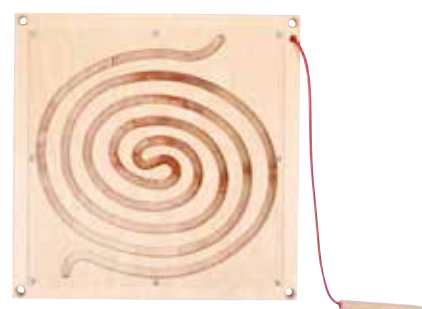

Manipulative house
House with various fastenings to practice hand motricity.
118263

Sensory panel
Elements with various textures.
118264

Manipulative panel
Bar with morable skapes and figures to fit into right holes.
118265

Carpets and fitted carpets

Baby Beetles carpet

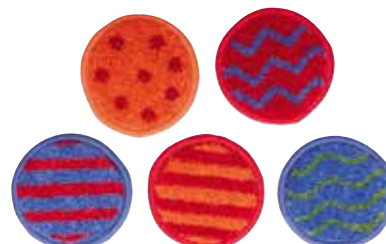

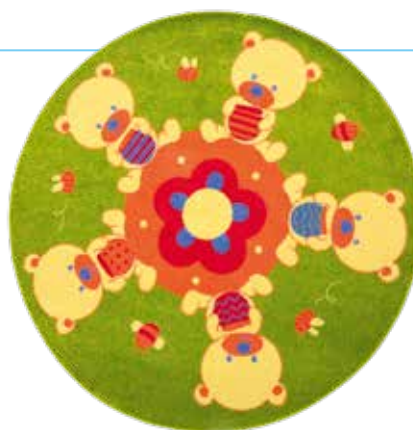

What better way to start playing with Baby Beetles mascots than with a Baby Beetles carpet designed for vocabulary consolidation. It reflects the physical world of the beetles – their tree-houses, road, mill, hills and sky. Pads with pictures of key vocabulary provide wonderful opportunities, for example, by laying them on the carpet, pupils consolidate vocabulary and recall songs. In addition, they make associations and find the right places for them, i.e. a flower on the grass, a fish in a stream or pond, a bird in a tree or in the sky, a sun in the sky, etc. This helps develop their cognitive awareness – in both languages! The carpet – together with the other elements of the series – will help to create a fantastic English language corner in your bilingual classroom! It is also perfect for any toddler's playroom. Fleece composition 100% PP heat-set frise single yarn. It has the Certificate of Compliance – i.e. Hygienic Attestation. Coated with flame retardant.
 • pile height: 7 mm • diameter 2 m • 11 circles with diameter of 20 cm
056099

Sensory play walls

Corner carpets

Colorful carpets with themed printing matching Two-piece manipulative corners (099629, 099630).
 • 1 pc • side length: 140 cm
056088 Corner carpet Pond
056089 Corner carpet Meadow

Round carpet with Teddy bears

An educative carpet with colorful Teddy bears and circles with patterns, each pattern corresponds with additional round element. Pile composition: 100% PP Heat-Set Frise (single yarn). Have The Certificate of Compliance and Hygiene Certificate.
 • dia. 2 m • 5 additional round elements with pattern, dia. 17 cm
056043

Carpet – Hopscotch, pink
• dim. 100 x 200 cm
016413

Carpet – Children of the world

Carpet presents different parts of the world to the children. It's a great place to play, occasion to learn about differences between races, cultures, clothes etc.

• dim. 2 x 2 m
056014

Carpet – City

Carpet, on which every child can discover the city with own diecast car or play favourite games. The carpet is anti-static and easy to keep clean. Material: 100% PA.

• dim. 133 x 175 cm
016007

Carpet – 4 seasons

An excellent aid for movement, music and learning games. The children recognise characteristic changes in nature in the respective seasons.

– non-slip underside – height: 7 mm – diameter: 200 cm
607024

Carpet – Meadow

Carpet with pattern, that gives impression of looking at the garden full of colorful flowers.

• dim. 3 x 4 m
056023

Flowerly carpets – Werbena

Carpet with pattern, that gives impression of looking at the garden full of colorful flowers.

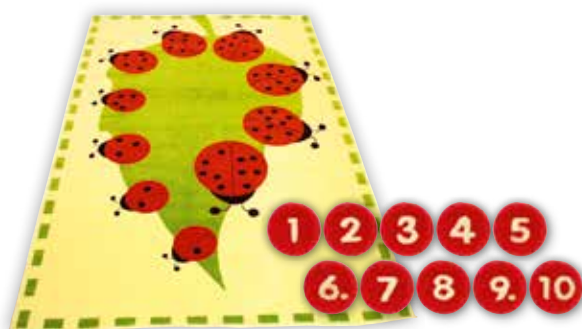

056009 2 x 3 m
056026 3 x 4 m

City carpets – blue

Carpet with printed pattern of streets and buildings will be perfect for an educational play or car racing.

056003 1,70 x 2,30 m
056078 2 x 3 m

Carpet – Ladybirds

An educative carpet with ladybirds on a leaf. Each ladybird has a different number of dots. There are round elements with numbers added to the carpet.

• dim. of carpet: 2 x 3 m • 10 extra elements with numbers • dia. 17 cm
056013

Carpet – Frog with geometrical figures

An educative carpet with frog serves not only as a decoration but also as an educational aid. Geometrical elements, incorporated in the carpet pattern, must be covered with elements in the relevant forms. Figures can also be used to play out of the carpet: to arrange shapes in the set order, to find shapes and group them by color, etc.

• dim. 2 x 3 m • 16 different figures in two colors: blue and green.
056030

Carpets for play corners

The carpets on this page are flame retardant – meet fire protection class Cfl-s1 according to EN-ISO 13501-1 or B1 according to the old DIN 4102.

Compose the perfect layout for your needs!

Our changing tables offer many possibilities of arranging a sanitary and hygienic room according to your individual needs and ideas.

The changing tables are made of durable materials and are not only functional but also have an aesthetic appearance. The room can be equipped with single pieces of furniture or whole sets.

Cabinets can be fitted with doors that open 180 degrees, drawers or plastic bins in different sizes to facilitate storage of your essential accessories. Rounded corners and high sides ensure the safety of toddlers.

Mattresses made of durable PVC fabric, phthalate-free, are not only comfortable but also easy to clean. Changing table sets and cabinets with washbasin are equipped with high quality 3 cm thick waterproof top.

Additional storage space is provided by wall-mounted cabinets, available in 3 sizes.

Matching changing mat available separately

Optionally available with bathtub or sink

Safety upstand 25 cm

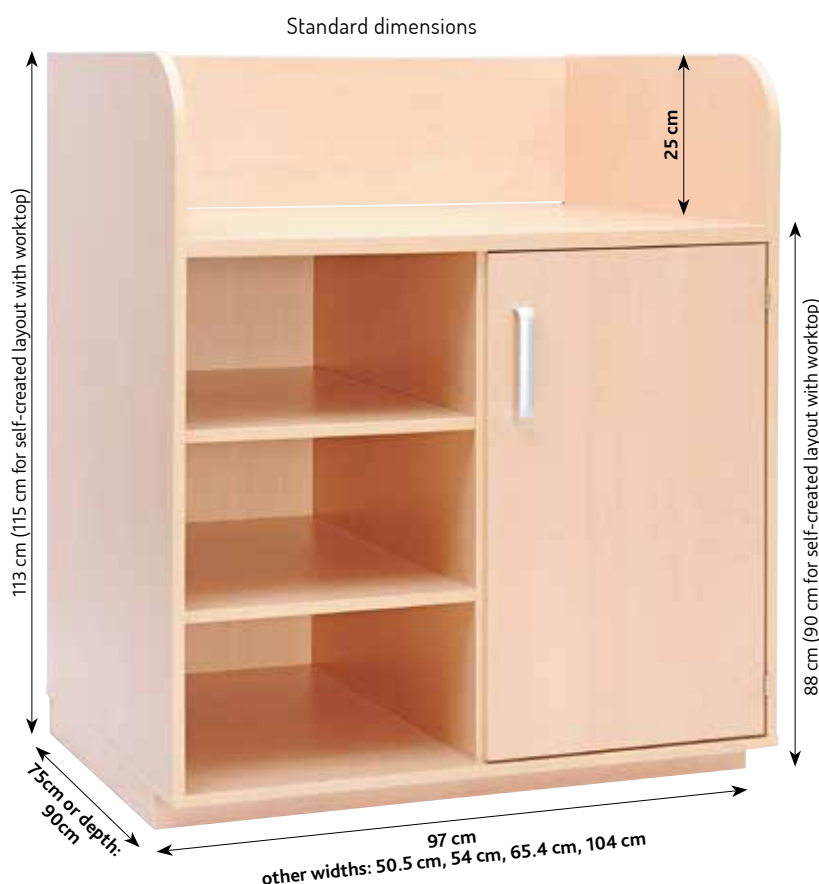

Rounded handles; made of aluminium

Hinges open at an 180°

Convenient working station thanks to recessed skirting board

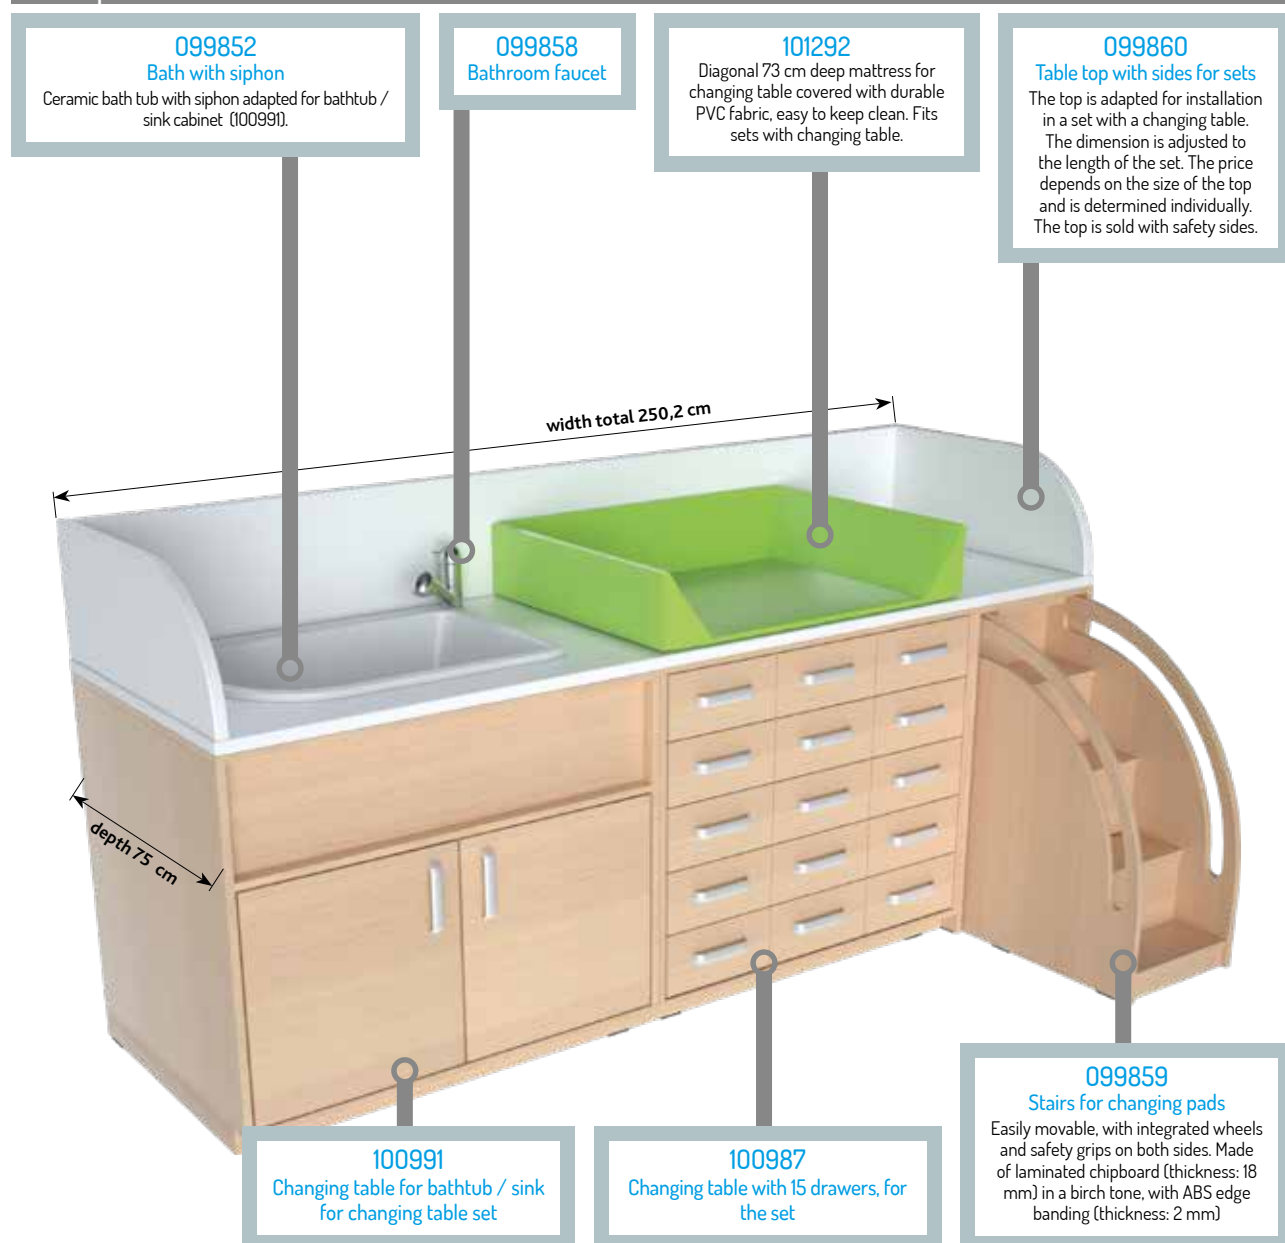

Please note that self-created layouts are goods manufactured according to customer specifications, which are excluded from the right of withdrawal (§ 14(1) of our GTC) or from the right of exchange for entrepreneurs (§ 15 of our GTC).

This is how you create your new changing corner:

Please specify cabinets in order from left on the order list.

Example:

IMPORTANT:

When using a table top with a depth of 90 cm, it should be taken into account that it protrudes from the back beyond the cupboards. Additional sides of the sets are made of a board with a thickness of 18 cm they cover the whole.

Please note that entry and assembly are not included in the scope of delivery. Water and sewage connections must be carried out by a specialist and are generally not included in the scope of delivery.

Shelves for diapers

Practical shelf with 6 compartments for diapers, to hang on a wall. Ca. 20 diapers fit in each compartment. Front side is made of plexi, so diapers don't fall out, but it is visible how many of them still left at the same time. Plexi wall has 2,5 cm thick slots in each compartment, so it is easy to take the diaper out. Movable top panel, with partition and soft closing hinges (what eliminates possibility of pinching fingers). After closing, top panel can fulfill a shelf function. Made of laminated chipboard (thickness: 18 mm) in a maple tone.

Shelves for diapers

- compartment dim. 21 x 14 cm

092733

Additional shelf for accessories.

- dim. 97 x 25 x 65 cm

• shelf height: 23 cm

Furniture collections

GRANDÉ

COLOR VARIANTS OF THE FRONTS:

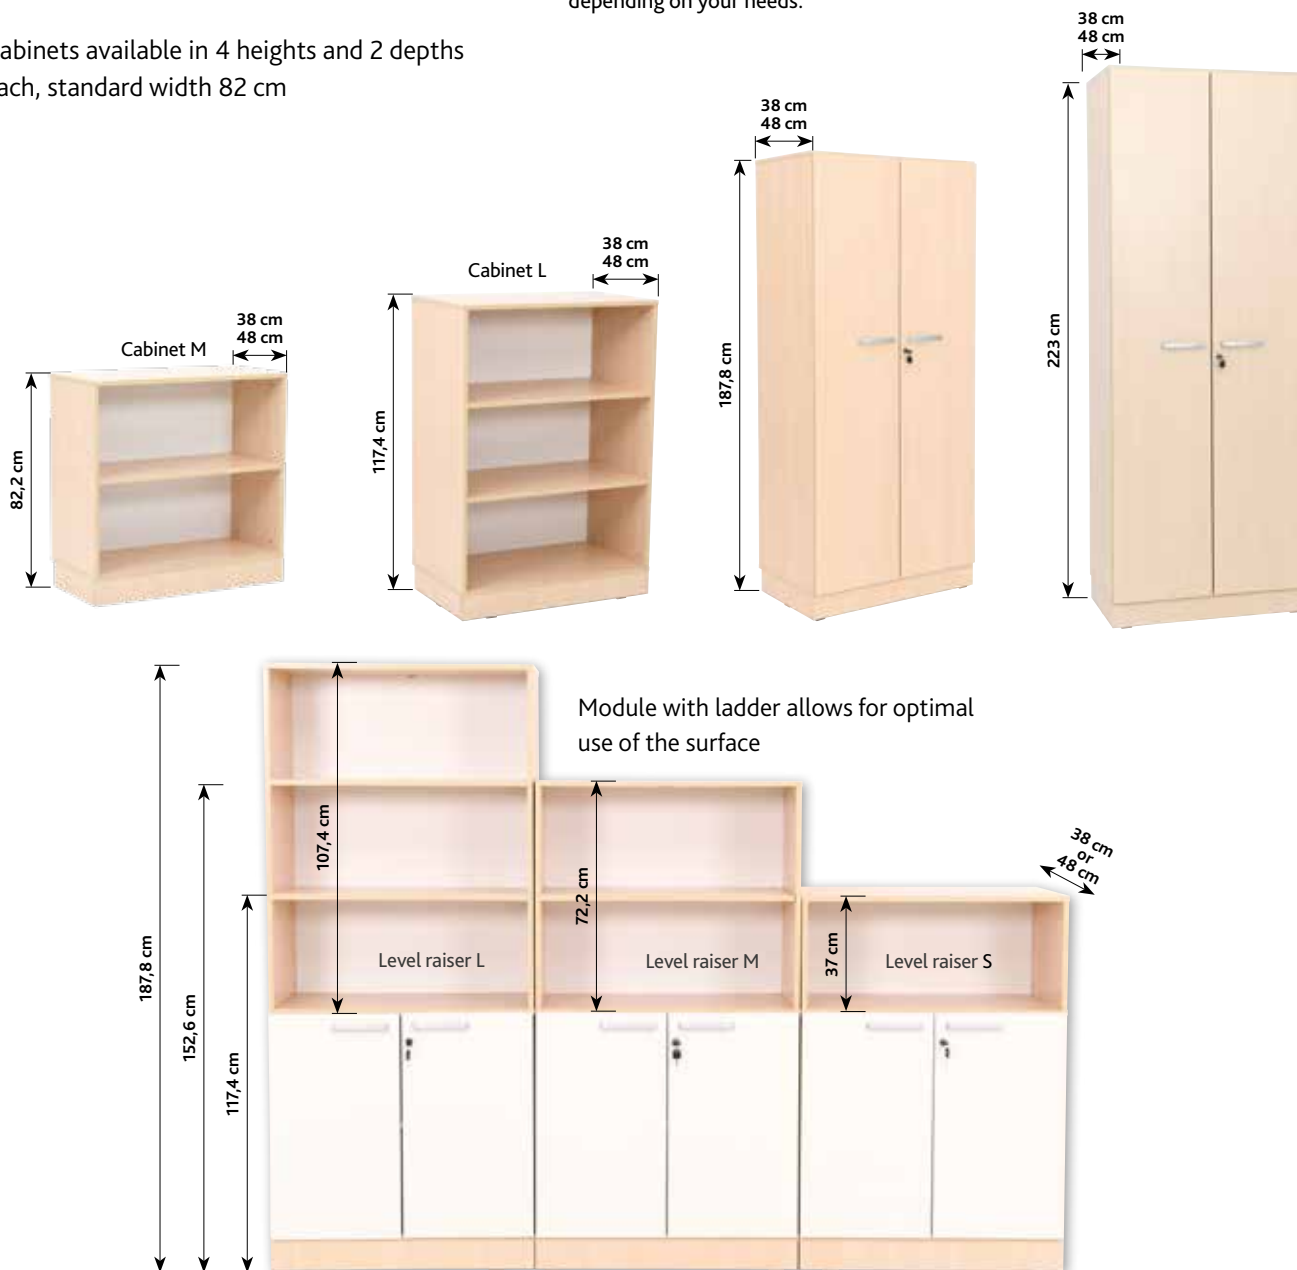

Furniture pieces from the Grande collection are made of laminated chipboard with a thickness of 18 mm, in maple and white tone. Fronts are also available in green, grey and yellow colour.

The Grande collection is a modern furniture adapted mainly to the needs of primary and secondary schools, to equip the classrooms, workrooms as well as administrative rooms. Cabinets and level raisers are available in 2 depths (38 and 48 cm), which allows the creation of furniture sets with deeper cabinets in lower part and shallow cabinets in the top.

Cabinets are available in 2 heights and 2 depths. Level raisers are available in 3 heights and 2 depths.

Combining them allows you to create cabinets with different overall heights, depending on your needs.

Cabinets available in 4 heights and 2 depths each, standard width 82 cm

The doors are available in 5 colors. Two types of hinges allow opening at angles of 90° or 180°. Doors are offered in pairs - suitable for standard cabinet width 82.2 cm. The 90° hinges are equipped with the soft-closing mechanism.

Optionally, the doors are available lockable. This way important documents can be stored safely.

The installation of doors increases the depth of the cabinet by 18 mm - to 39.8 cm or 49.8 cm.

Shelves are adjustable 32 mm each.

Doors for top cabinets and level-raisers

Doors made of laminated chipboard (thickness: 18 mm). Equipped with hinges allowing the door to open 90 degrees. For cabinets M (096898, 096898W, 096899, 096899W) and level raisers M (096890, 096890W, 096891, 096891W).

Office furniture collection

kvadra

COLLECTION IN MAPLE TONE

maple

Kvadra is a universal system of office furniture, offering the possibility of arranging the conference rooms, receptions and management stations. The system includes office desks, conference tables, pedestals, cabinets, bookcases and shutters as well as complementary elements. Thanks to its design Kvadra combines the advantages such as stability of the structure, functionality and modern forms. Reception desks made of thick laminated board of 18 mm with edge of 2 mm. With a few blocks, you can create a variety of sets: with extensions, straight or corner counter. Corner part covered with aluminum-colored laminate.

The Flexi collection excels in versatile, innovative multifunctional furniture. It adapts to the available space in the room, can be set up freely and serves ideally as room dividers. Basic elements, add-on shelves and additional doors allow numerous design variants. They can be set up and rearranged in no time at all. Add-on units increase the cabinets capacity. Flexible, stable and practical - that's Flexi! For the collection, we use laminated chipboard (18mm thick) in birch-tone with ABS edge banding (2mm thick) in multiplex look. The natural décor can be complemented with coloured door fronts. This creates the simple, unmistakable design of our Flexi collection.

Legvan series

Upholstered furniture Legvan series - collection of seats specially designed for corridors and public spaces. The series consists of modules that can be arranged as desired depending on the function and aesthetics of the room. The modules are available in various colors, which enables creativity in spatial design. Thanks to large seating areas and backrests, they give the room an atmosphere of calm and relaxation and neutralize the hectic pace that often arises where many people move about.

• Cover: flame retardant textile (Bond - 100% PE), tested according to EN 1021-1, EN 1021-2
• Metal frame, powder-coated • Seat height: 44 cm • Seat depth: 46 cm • Backrest height: 28 cm

Cover made of
flame-retardant

Foam puzzle mats

A carpet for gymnastics or games can be created from the individual foam puzzle pieces in no time at all

Creative 3D mat

Creative foam mats set, that allows child to enter the fascinating world of geometric figures. Puzzles can fulfill various functions: utility – as a mat for fun and relaxation, education – familiarizing the child with a variety of shapes, as well as development – stimulating the sense of sight, touch and development of manual and movement skills. By using contrasting colors: black and white, figures attract the attention of children and encourage them to creative play. The child also learns the principle of combining and matching puzzles. Mats are double-sided. On the one side, the black figures on a white background, on the other – white figures on a black background.

- 3 monochromatic mats
- 3 mats with 1 removable figure
- 3 mats with 2 removable figures
- 1 mat dim. 50 x 50 x 1,5 cm

096771

Mini rollers to
stimulate feet

Mini rollers for hands –
help to release cramps

Massage rollers

The device provides proprioceptive stimulation. The child pushes himself between the rollers and stimulates his deep sensation. This has a calming and relaxing effect. The exercises are especially useful for sensory disorders. The device helps to reduce the children's tactile hypersensitivity. It has a full-body roller and mini rollers on the sides for hands and feet that help to release cramps.

Mangle for the treatment of SI disorders – MED.

Exercises provide a large dose of deep sensations, they are especially recommended for sensory disorders, they are used to inhibit tactile defense. Additionally, the device has mini rollers for exercising arms and legs. For use under the supervision of a therapist.

- adjustment of the pressure of the rollers
- dim. 74.6 x 112.5 x 74 cm

096961

The child pushes himself
between the rollers and
thus stimulates his deep
sensation.

Elastic band for
pressure regulation

Sensory lounger – Kayak

An inflatable lounger in the shape of a kayak, which offers a strong sensory experience. It provides a deep body awareness and has calming properties. The lounger was designed by therapists and is especially helpful for sensory integration disorders. It is made of very durable, beflocked vinyl and can withstand the wear and tear of everyday daycare. When the child is lying in the kayak, it can be gently cradled.

- For use under adult supervision only
- pump not included
- length: approx. 150 cm – from 3 years onwards
