OUR WORLD GAMES

Greatest Athlete of All Time

James Kehoe (left) was first told he had been nominated by TWIF as a candidate while he was driving his tractor on the family farm.

*He felt very privileged to have been selected from such an illustrious panel to represent T.O.W in the **World's Greatest Athlete of All Time** competition.*

Our campaign began on the 8th of Jan and through social media quickly grew momentum with family, friends and the wider T.O.W community right around the world.

We got a major boost in votes when National TV, radio and numerous newspaper and radio interviews both local and national got involved in covering our campaign. An interview with our national broadcaster RTE for their main evening news greatly helped our campaign and boosted our votes.

We were all working hard behind the scenes constantly posting on social media, gathering medals for displays,

taking photos, organising interviews and reminiscing over treasured memories of TUG of War over the years and the wonderful friendships that were formed.

The whole process of everything involved in promoting himself was a daunting challenge to James as a shy humble person, but in the true Boley spirit grabbed it with both hands and accepted his challenge as the true sportsman that he is. He is surprised by how much he is enjoying the attention in these latter days of the competition.

The 'Greatest Athlete of all Time' election

The selection of TWIF's athlete for the selection of 'World Games Greatest Athlete of all Time' was between Peter Odermatt from Switzerland and James Kehoe from Ireland - although that was the opinion of TWIF Exco.

Both athletes have had a great career in Tug of War. Peter Odermatt has pulled at 5 World Games and has been coach for the Swiss ladies team at two World Games (2013 and 2017).

Peter has won 4 Gold, 4 Silver and 1 Bronze medal at the World Games as an athlete and is ranked as number 12 in the 'The World Games most successful Athletes' from 10 World Games with his total of 9 medals.

The reason we chose James Kehoe in this election was because James has pulled at 9 World Games - which is an achievement that we think no other athlete will ever repeat. James won 9 medals as well at the World Games - 2 Gold, 3 Silver and 4 Bronze.

On 8th January 2021 the 'World Games Greatest Athlete of all Time' started with a selection of 24 athletes from the following sports: Archery, Beach Handball, Boules, Canoe Polo, Dance Sport, Finswimming, Fistball, Floorball, Flying Disc, Gymnastics, Ju-Jitsu, Korfbal, Lacrosse, Lifesaving, Muaythai, Orienteering, Powerlifting, Racquetball, Roller Sports, Sport Climbing, Sumo, Squash, Tug of War and Waterski and Wakeboard.

The overall winner is **NICOL DAVID** from Malaysia in 'Squash' with the total amount of **318 943 votes**. **JAMES KEHOE** came in 2nd position with **113 120 votes**. **LARYSA SOLOVIOVA** 3rd with 'Powerlifting' receiving **80 790 votes**.

On 20 January 2021, the 10 candidates with the most votes continued in the race. James Kehoe gained votes over the last few weeks and was 3rd for some days and then headed up to the 2nd place. It turned out that there were some fraudulent activities in the voting, also within Tug of War - but especially in Sumo and Powerlifting. The World Games has done research and removed the fraudulent votes in all the sports, which brought James Kehoe back to a solid second place.

"Within the Tug of War sport, we are used to the longevity and multi-generational participation of our top performers over extended periods. James Kehoe has taken this to the next level and we are extremely proud that he so ably represented our sport in this prestigious competition and ended up being part of the top 3 - yet another example of age only being a number - if you're good enough, a prolonged career at the highest level is possible. I am humbled and extremely proud by which the global tug of war fraternity stepped up to the plate and supported James by voting consistently during this competition. A true reflection of the spirit and ethos of our global TWIF family that is encapsulated in the person of James Kehoe - a wonderful ambassador for our sport". **ANTON RABE**

"It's been a very different but exciting few weeks. I am a shy person by nature and prefer to be out of the spotlight, but as the competition progressed, much to my surprise, I enjoyed it even more. I am totally overwhelmed by the amount of support I am receiving. Regardless of what position I finish in it is an honour for me and my club to have been chosen as competitors in this competition". Kind regards to everyone. **JAMES KEHOE BOLEY**

James is now 64 years old. (He is from a family of 10 brothers and 2 sisters!)

"Tug of War runs in the veins of James Kehoe and his beloved team Boley. Little did he know that when he joined the Boley club he would achieve so much - and now, after a lifetime of commitment he was in the running for the 'Greatest Athlete of all Times in the World Games'. Pullers come and go - but James is the exception - for sure a legend in the sport - setting a record that may not be equalled ever again. An ambassador for Tug of War, his club and his country - but most of all a Gentleman".

Tug of War Boley

Boley Tug of War Club first started pulling at local Field Days in the late 1960's and early '70's.

This was a different style of pulling and it was very popular in Co. Wexford and surrounding Counties. Team Boley were very successful at their competitions. In June 1975 Boley were asked to join the ITOWA and after a few weeks training we competed in our first National Championships which were held in a place called Hegarty's Cross, Co Limerick.

We took part in the 600 kg - winning Silver medals. In 1976 Boley were joined by a few pullers from the Clongeen Club which were very successful at home and internationally in the late sixties and early seventies.

1976 was the first full year that Boley pulled at home in all weight classes - winning both the 600 kg and 640 kg. The fact that Boley won the 640 kg enabled us to represent Ireland in Cape Town, South Africa. This World Championships was our first taste of International Tug of War and it was a fantastic experience meeting all the teams from other nations.
