

THE HOPI NATION

SONGOOBAVE HOPI MOMNGWIDU

March 29, 2012

Kikmongwi/Ja'agmongw
LeeWayne Lomayestewa

The world is currently in a state of chaos and the Traditional Hopi of Arizona believe that "What Happens in Hopi, happens to the rest of the world." There are many issues that are being faced by the people of the planet, none more important than what is happening to the water supply around the globe, as this is the element of life itself to everything that exists here on earth.

The Hopi are now facing a Water Crisis on their lands along with the rest of the world. The rights to their own water is under threat from outside Hopi through a legislative Bill to the Senate floor, Bill 2109. This Bill would remove *Aboriginal* rights to water for the Hopi people now and into the future. Ownership by Governments and corporations. *(This Bill states the title of "Aboriginal" rights to be removed, this is interpreted by the Traditional Leaders as being the right to life itself being removed.)*

The Traditional Hopi of the Mother Village of Shungopavi for the first time in history are breaking their silence and stepping out into the world to speak. Recognizing that the natural world is not being cared for and if we continue to ignore the Natural Laws then we will face a devastating future.

Patrick Lomawaima

You may find this website at:
www.traditionalhopi.org

Tsufmongwi
Floyd Lomaguyvaya

Through this site the Traditional Leaders who still perform the Ancient Ceremonies of their Ancestors and have done so for thousands of years, the same Traditional Leaders who still hold the Sacred knowledge of the Natural world and who have held these Ceremonies to maintain the balance in our world, are breaking their silence.

Interviews and messages for the world will be created and placed upon this website from the Traditional people of Hopi. Join with them as they speak for the first time in history from this Village.

The Shungopavi Traditional Leaders are asking you to join them in this cause to stop bill 2109 from being passed on the Senate floor of the the United States Congress. They will give us ways in which to support them through the 'take action' link.

Directly from the Leaders themselves we are being asked to support their cause as well as support others around the world who are also working to protect life itself which is water.

They recognize that if we do not stop the privatization and ownership of water we will not have a future for our children or future generations.

This message is on behalf of the
Hopi Traditional Leaders of Shungopavi Village

Ronald Wadsworth
Spokesman for Kikmongwi (High Hopi Chief) Shungopavi Village
