

## WHO WE ARE

Frontline Consulting Associates was established by Ann Reeder in 2007.

Our focus is on the role of elected members and good governance.

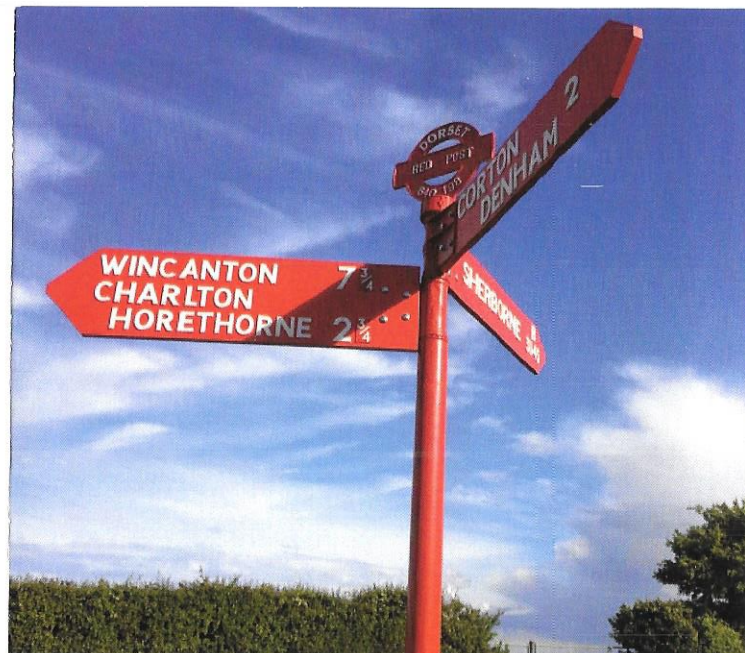

We work with all types of council and specialise in developing relationships between councillors across the tiers.

Our team includes experienced councillors and officers – leaders of councils and groups, cabinet members, mayor/chairs, communications' specialists, policy makers and advisers. Associates also have worked in the civil service, the NHS and the third sector.

Our work with town and parish councillors is led by a long-serving town and parish clerk and a former parish councillor.

Our commissions are delivered in consultation with client officers. Our learning and development activity and consultancy is bespoke, contextual and interactive.

We have positive feedback and repeat commissions. Our training and consultancy is well-received, constructive, informal, engaging and enjoyable.
